

Italian quality spas on cruise vessels

Installation of spas and whirlpool systems

- We supply and install hot tubs, spas and saunas providing also the necessary technical assistance and service, performing both routine maintenance work and major refurbishment.
- We are specialized in spa installation, modification of existing plants and related servicing, such as maintenance of existing filters and whirlpool systems.
- Our team is well trained to deal with urgent tasks wherever it is needed.

We can follow your
project wherever it is

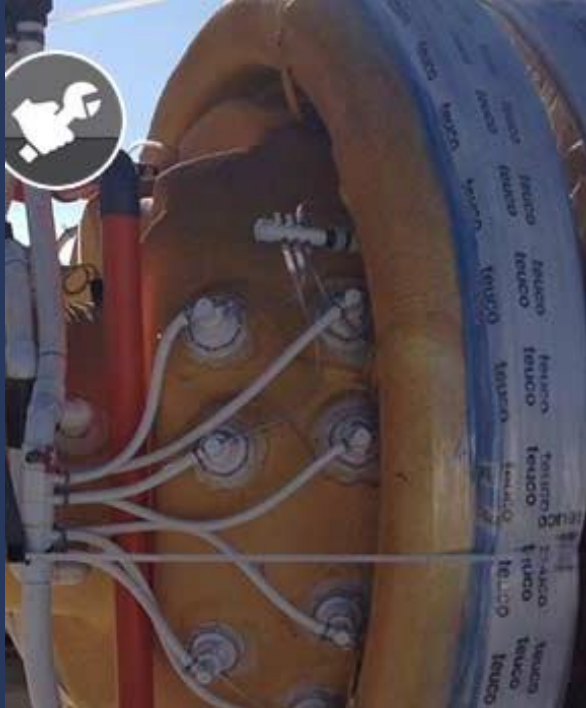

We install and use high quality
components produced by world
leader brands in the spa industry.

We design and develop SPA systems
for cruise vessels offering our
customers the best solutions for
any need.

Installation

Our well-trained team supervises every project in a professional way, taking care of all the details.

Maintenance

Our plus point is our ability to solve problems punctually and thoroughly without interfering with routine operations.

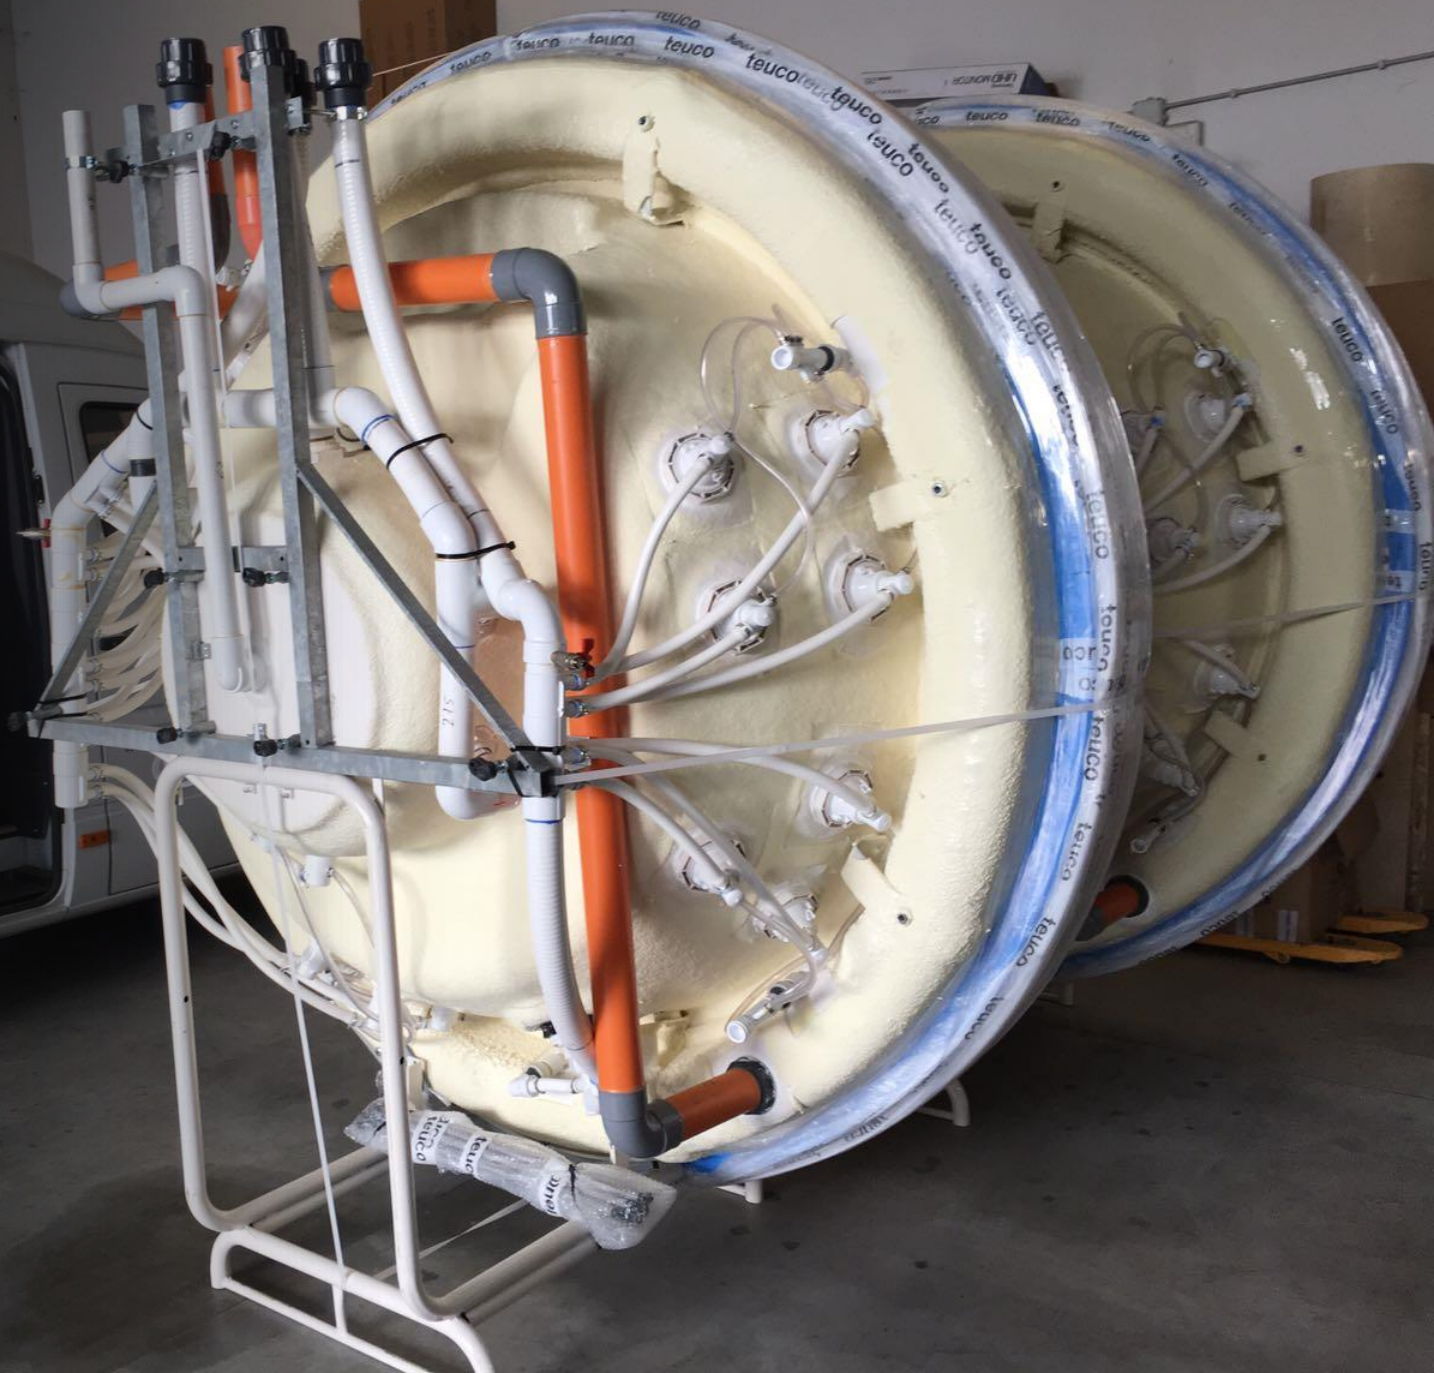

Spare parts

We can supply high quality spare parts for hot tubs, spas and whirlpool systems.

Technical Gallery

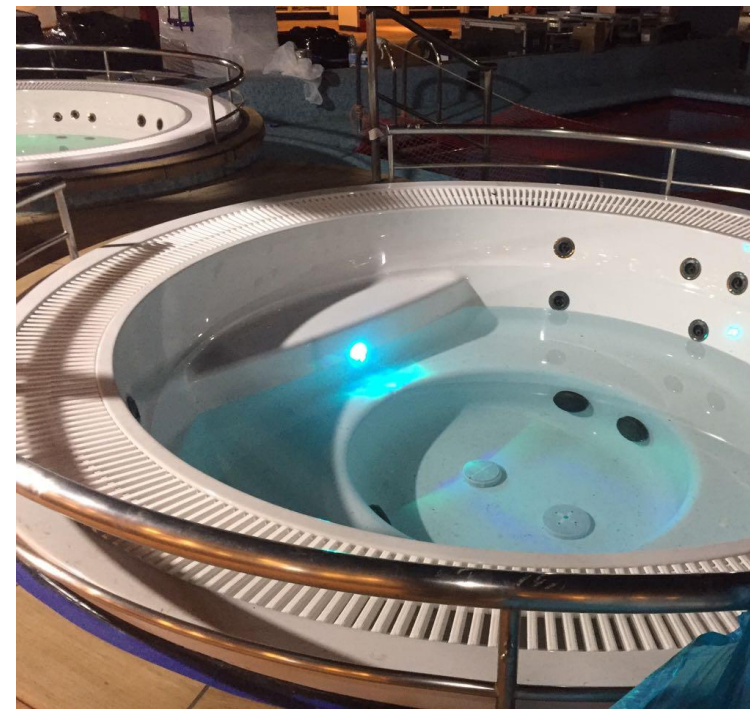

Complete installations ...

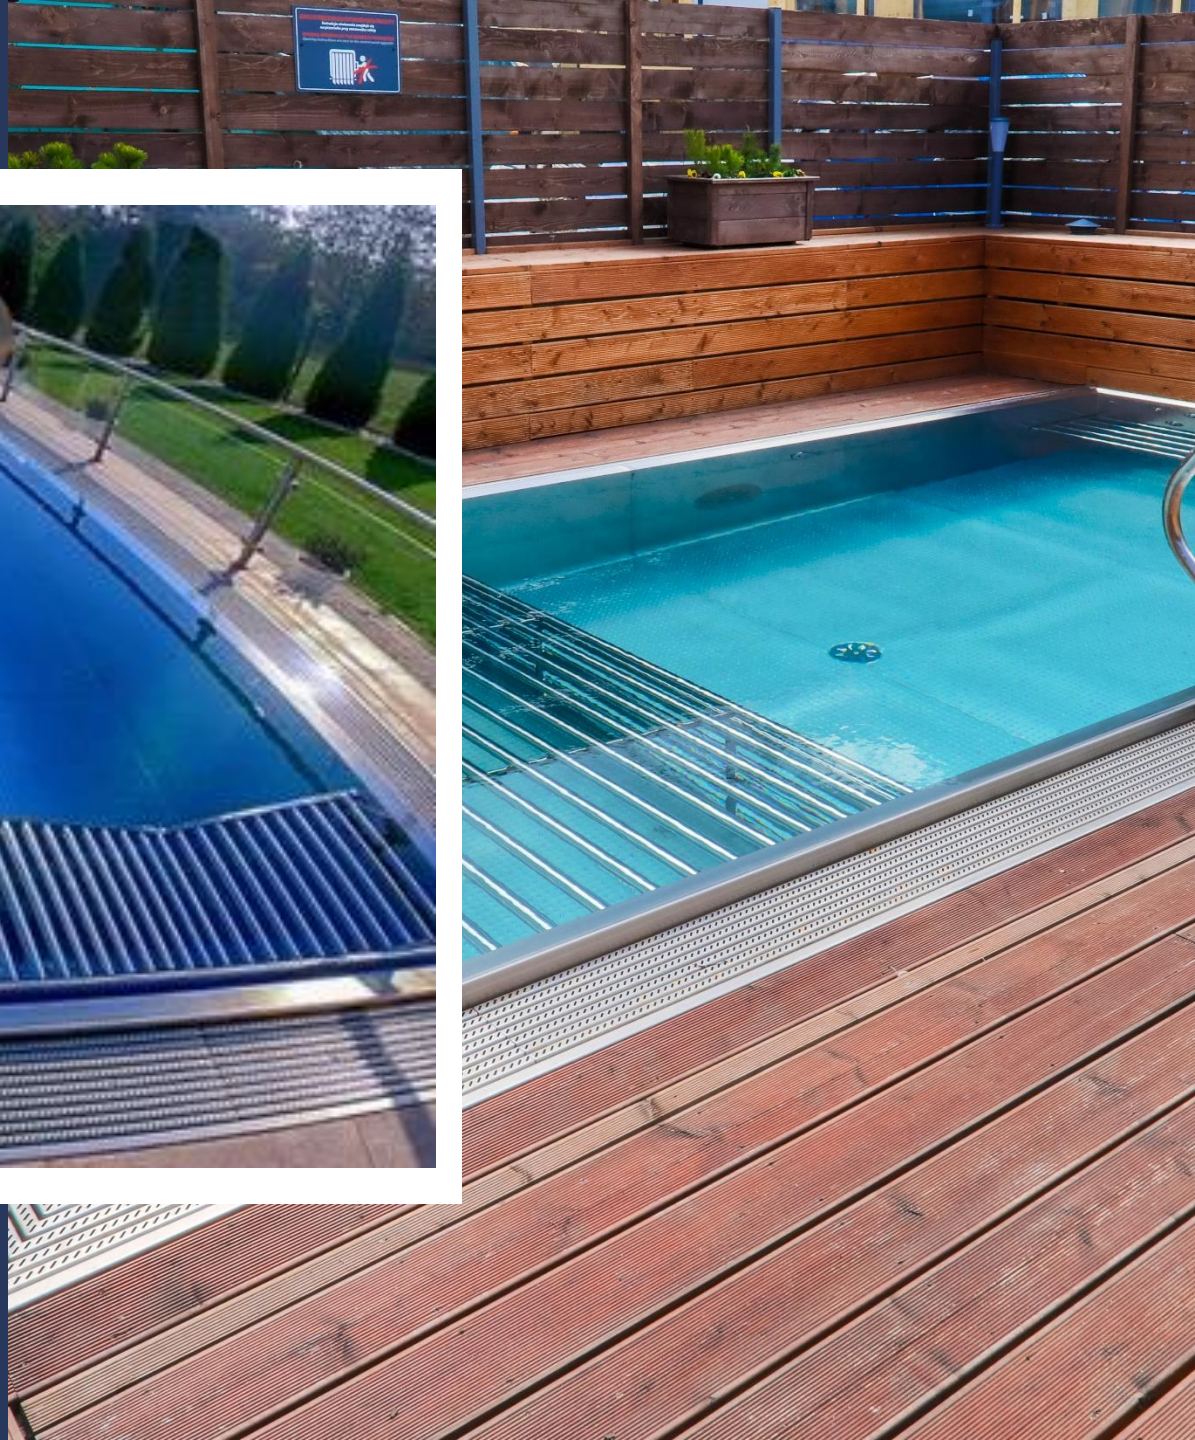

STAINLESS STEEL

We can supply and install stainless steel swimming pools, SPAs and all related accessories.

Both swimming pools and SPAs come in a standard size, but we can also offer customized items according to the customers wishes.

FLAME RECOATING TREATMENT

A person wearing a dark blue jacket and blue jeans is using a silver and blue flame recoating torch. A bright orange and yellow flame is being directed at the interior surface of a white hot tub. The hot tub has a circular drain cover visible at the bottom. The background is a plain, light-colored wall.

When the spas cannot be replaced, it is possible to revamp them thanks to our **FLAME RECOATING TREATMENT**

BEFORE FLAME RECOATING TREATMENT

AFTER FLAME RECOATING TREATMENT
