

LUXURY SOFT FLOOR®

LUXURY SOFT FLOOR (LSF)

DESCRIPTION

Luxury Soft Floor is made of a material with a unicellular structure with high resistance and flexibility. Our product is fire-proof Cl.1, anti-slip and has great shock absorption. It is particularly suitable for indoor and outdoor pools, aqua parks and theme parks. Luxury Soft Floor is repellent to all substances, mold resistant, anti-microbial and waterproof. The special surface with custom made texture ensures the anti-slip effect in humid environments as well. Composition: Ethylene Vinyl Acetate elastomer mixture, close cell, inorganic load, and various pigments.

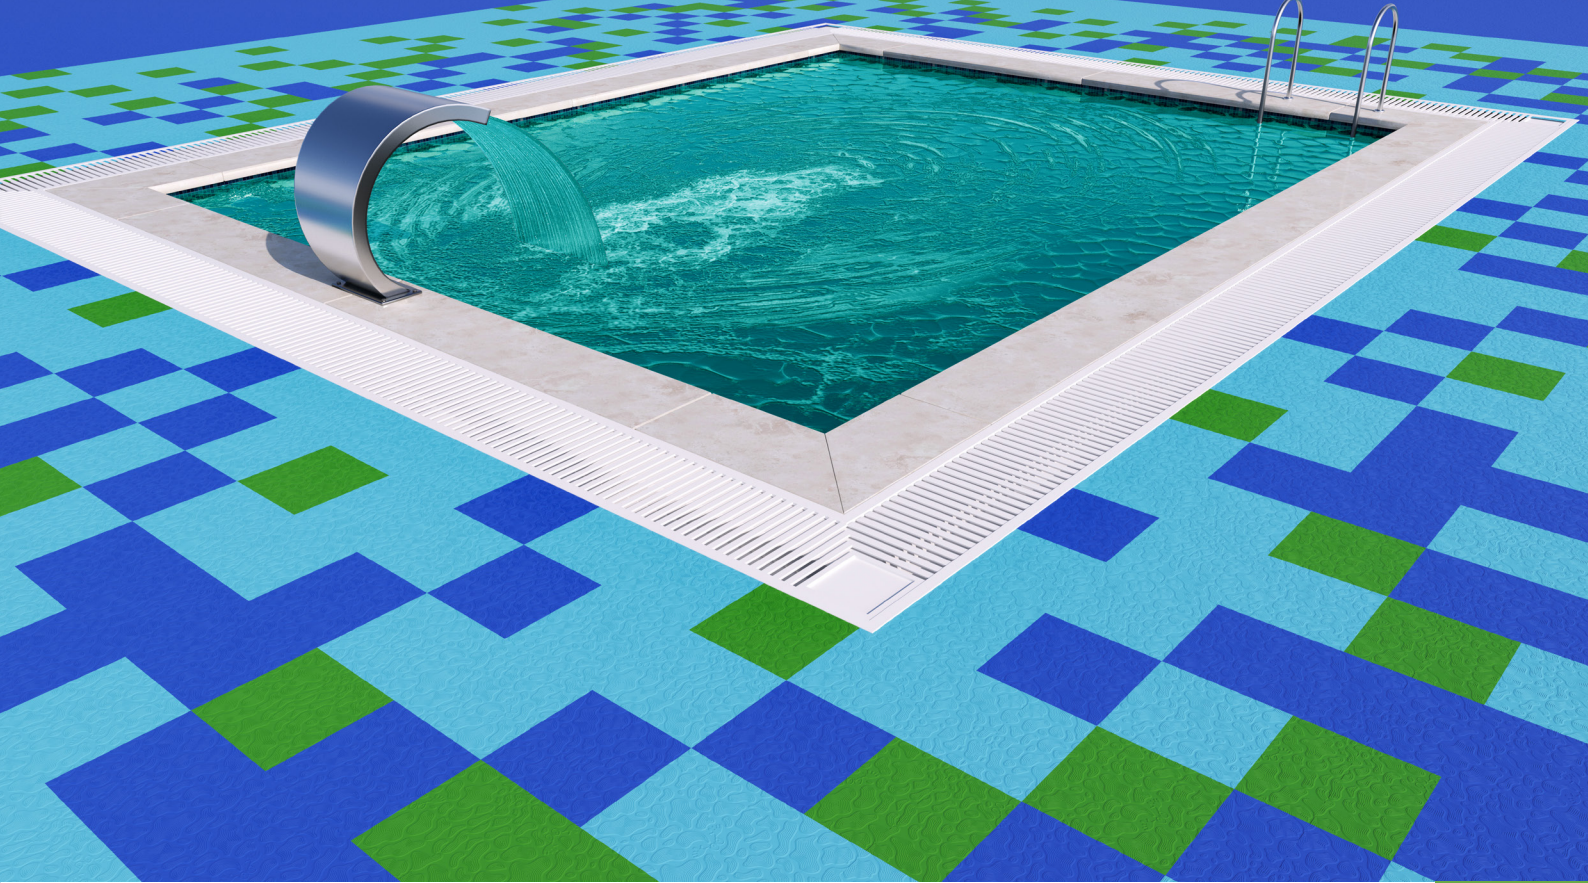

INSTALLATION

INSTALLATION: Luxury Soft Floor is glued directly to the deck of the ship. During installation, we can play with the different colors available and create various shapes and designs based on your requirements.

MANTAINANCE: Luxury Soft Floor is easy to clean and preserve with the only use of water and regular neutral cleaners, which are not aggressive.
